

COLLECTOR'S MESSAGE

SMT. NILA MOHANAN IAS

It is with great pleasure that the North Goa District Administration is presenting to you this revamped website of our district. It has been our constant endeavour to make service delivery more citizen-centric and responsive. As a part of this, we have introduced various initiatives like Village Level Service Delivery through which services like issuing of Residence, Income, Divergence and Caste certificates have been made accessible for the public right at the Talathi offices in each village of the district, Single Window for Partition, Conversion and Mutation that has brought about transparency and promptness in clearing of applications, Self Declaration Facilitation service to help the public in filing self declarations to access various services and so on. The launching of this revamped website is yet another milestone in this ongoing journey.

In this website, we have attempted to give access to our services to the public at the click of a button. It has various user-friendly links through which maximum information is sought to be provided. In the days to come, we will strive to incorporate even more features that will be helpful for a citizen who wants to know more about North Goa District or access different services. We look forward to your valuable feedback and comments through the Citizens' Feedback link.
